

OUR MISSION:

We are dedicated to offer the most optimum and reliable computer systems that meet the specific needs of our customers without sacrificing quality, professionalism and customer service.

We specialize in helping

- Individuals
- Small Businesses
- Corporations
- Government, Municipal and Educational Institutions

make decisions on the implementation of any and all of their computer needs.

Computer Security, Wireless Networking, and Performance Analysis

- Special Offer -

For a limited time, Oak Computers will perform a complete system security analysis of your computer, network and Internet connection.

We will :

- Analyze your computer's vulnerabilities to Virus, Spyware and intruders. We will recommend a cost-effective method to remove any current infections and to reduce the possibility of future infections.
- Analyze your wireless (or wired) network, configure your equipment for the maximum possible security and provide you with configuration documentation.
- Provide a performance check of your computer, network and equipment. We'll share our findings with you and recommend a plan of action to increase your system's performance.

WHO WE ARE...

Oak Computers is a locally owned and operated business. We have been providing computer consultation, repair and installation for over 20 years to both businesses and individuals.

Other consultants may talk over your head or in “techno-babble”, but at **Oak Computers**, we understand that plain English is what our customers want to hear. We simply explain what we are doing and why. We want you to feel comfortable that the solutions we present are in your best interest and are cost efficient.

Our numerous local clients rely on our honest and affordable services. Please contact us for referral information.

We are also Software Developers and Web Designers.

Ask about Custom Software Solutions, Web Page Hosting and Design.

WHAT WE DO...

Security / Identity Theft – Chances are you may be vulnerable ... even if you've installed security software --- let us make sure you are secure!

Virus & Spyware – Protect yourself from these infections! Tired of Pop-ups ... computer speed slowing down? We have the solutions!

DSL/Cable Internet Access – Need Internet access? Want faster access? Tired of Dial Up? Is your Internet Access Protected? We have the solutions!

IS YOUR INTERNET CONNECTION SAFE?

Already have an Internet connection? Do you know that you are DEFENSELESS against hackers without a Firewall? Your Internet connection is like an unlocked door into your computer if you don't have one.

Contact us now for low-cost Firewall installation.

Wireless Networking – Tired of being stuck at a desk every time you use your computer? Ever imagine writing e-mails from your favorite chair? Or wanting to “surf the net” while relaxing in your backyard? Do you want to be able share files, printers and your Internet connection with your other computers?

Break free and go wireless! Get rid of those ugly CABLES! **Oak Computers** can set up a wireless network and make certain it's SECURE!

Already have a wireless network?

FACT: The majority of wireless networking products are shipped from the manufacturer with **NO** Security features enabled!

Installed this way, you are vulnerable to having ANYONE access your private files, emails and credit card numbers! We can make it SECURE!

Computer Upgrades – Does your computer seem sluggish? Lost that snappy feeling it had when it was new? Today's software demands more of your computer than ever before. Often one of the following low cost options will add the speed back into your PC:

- **Additional Memory:** Memory is inexpensive and will greatly improve the speed and efficiency of your computer.
- **Larger hard drive:** Installing an additional hard drive can be tricky. It involves opening your computer and ensuring all the many cables, jumpers and settings are correct.
- **Operating System Upgrades:** Moving to a modern operating system (Windows XP or 2000) gives you benefits in system speed, operating efficiency, system protection and general ease of use.

Oak Computers will evaluate your existing system and recommend a plan of action.

Data Backup – Can you afford to lose your valuable data? Ask us about affordable, automated data backup methods.

Software Installation – Tired of reading manuals, installing software and then not have anything work right? We'll do it for you!

Product Selection Assistance – So many products ... what's best for me? We'll assist you and find the right products in your price range.

Custom Built PCs – From High Performance (for the demanding user or gamer) to Basic Systems (for the occasional user) to Home Theater PC - We design complete systems to your needs and budget.

Access Your Computer Remotely – Now you can access your computer AWAY from home or office! We have the answer!

Training – Not sure how to get the most from your computer? We provide in-depth training and instruction.
